

SHIPBOARD INSULATION HARDWARE

SH-13 Sail Hook

Steel, zinc-plated wire lacing hook for securing thermal insulation and related shipboard insulation assemblies.

Merrick part number	SH-13
National Stock Number	5340-01-591-3839
Common name	Sail hook / wire lacing hook
Material	Steel
Finish	Zinc plated
Application	Thermal insulation securing

PRODUCT DESCRIPTION

SH-13 is a formed steel sail hook used as insulation-securing hardware. The component is also identified in industry documentation as a wire lacing hook. It may be used for joining fabric seams and as installation hardware for spray or flange shield assemblies when specified by the applicable drawing, purchase order, or shipyard requirement.

DIMENSIONS & REFERENCES

Characteristic	Nominal requirement
Overall width	0.695 in
Overall length	0.960 in
Hook height / hook length	0.625 in
Configuration	No. 13 formed wire sail hook
